DIARY NOTES

22 September 1959

1. Bob Macy, Bureau of the Budget, telephoned to say that he was making a trip to India and Pakistan, leaving on Saturday and returning about 1 November. He had spoken to me earlier about some 18 projects which the Bureau hoped to complete prior to the expiration of the President's term of office. Mr. Stans recently reviewed these with the President who expressed real interest in Mr. Dulles' coordinating role as Director of Central Intelligence as opposed to his role as the head of the Central Intelligence Agency. Messrs. Beckett, Schaub and Macy will all be working on this and Bob was anxious to have a meeting with the Director prior to his departure on Saturday. (I have arranged an appointment at 1500 hours on Friday.)

2. George Carey telephoned to request that we give [REDACTED] a grade GS-12 in consideration for any possible openings in the Support side of the house. I told him that I would be very glad to do this but was most pessimistic that we could work out a transfer at her grade level.
